For me, it's definitely Panang Curry. This is one of the authentic, rich and creamy Thai curry based on the mild buttery flavour of coconut milk, a flavour that is prominent in the dish. Cooking this dish is very easy, and it can be made in almost any kitchen and does not take too long to cook. It's a hands-off dish, meaning you don't really need to stand around the pan while the dish is cooking. You can get creative and add whatever ingredients you like, as long as they complement the rich curry base. In this recipe, I have added sour green chilies and some black olives to enhance the flavours of the dish. Pour in the coconut milk, curry paste and salt. Stir well, cover and cook over medium heat until the curry begins to thicken and reduce. Add the coconut cream and stir well. The coconut cream will separate from the oil. This is normal. Stir well to mix in the separated coconut cream. The mixture should be thickened and the oil should be separated from the solids. The mixture should have a paste like consistency. If it's too watery, increase the heat and cook for another 5-10 minutes. Remove the pan from the heat and stir in the green chilies and black olives. You may want to taste and adjust the flavours of the dish if it's not to your taste. Serve and enjoy! I hope you enjoy the recipe as much as I do! The best part of cooking with coconut milk is that it takes very little effort and yields incredible flavour. So why not try it for your next main course! In a strong statement opposing the rollout of the department store model in Australia, the bookseller's body applauded the opposition to the planned changes, which it said gave power to international supermarket giants like Woolworths and Coles "which have their own special
