Q: date range - sql query I have a table which has a date column, I would like to search a set of date ranges: 1940-1951 1952-1964 1965-1969 1970-1974 1975-1980 1981-1986 1987-1994 1995-2000 2001-2006 2007-2010 2011-2014 2015-2020 I would like to create a sql query in order to select all the dates within the range (for example '2000-2010') and all the dates between two arbitrary ranges like : between 1950-1994 2015-2025 As you can see, the ranges contains one instance of the year and the total number of years for each range is not constant (it depends on the actual date range). Any idea on how to do this? A: What you can do is create a table

that contains each decade between each of your years, and then join to that. Something like the following would work: Select date From [YourTable] A Left Join [DecadeTable] B On A.Year = B.Year And A.Year = 2010 Left Join [DecadeTable] C On B.Year = C.Year And C.Year = 2005 Where A.Year Between 1950 And 1965 And B.Year Between 1951 And 1964 And C.Year Between 1966 And 1969 This would result in: date 1951-01-01 1952-01-01 1953-01-01

The Government Department of Education and Early Childhood Development conducted the survey in 2005 as part of its programme of work supporting the use of te reo Maori in schools. Focus of the survey The study has a broad focus on how te reo Maori is used in schools, with a specific interest on students' language learning, their use of te reo Maori within classes and their engagement with the teaching of te reo Maori. Further questions were asked about teachers' own use of te reo Maori, their involvement in the teaching of te reo Maori

and their perceptions of the quality of teaching in relation to their use of the language. A specific focus was placed on encouraging students to more deeply engage with the spoken and written aspects of the language. Schools reported on their own practices, where possible, in comparison to the national targets set in the Te Kete Ipurangi Report. Individual schools were also asked if they had undertaken any specific activities with a view to encouraging more widespread use of te reo Maori. Questions were also asked about the use of the language in and out of school, including the use of te reo Maori in family time, and the extent to which students feel supported by adults to engage with the language. Primary questions addressed in the survey What do you think are the factors that will encourage or discourage you to use te reo Maori more? What does it take for you to use te reo Maori in your everyday life? How do you think your use of te reo Maori compares to the average student in your class? How do you feel about the quality of teaching of te reo Maori? How do you feel about the quality of school-based learning of te reo Maori? Have you
